

# South Plains College

## MATH 1316 – Trigonometry

Section 200, M W 7 – 8:15 pm

Bldg. 2, Rm. 221

**Instructor:** Miss S. Davis

**Office:** 103 MATH Bldg. (Levelland)

**Phone:** (806) 716 – 2699

**E-mail address:** [sdavis@SouthPlainsCollege.edu](mailto:sdavis@SouthPlainsCollege.edu)

Monday	Tuesday	Wednesday	Thursday	Friday
4:20 – 5:20 p (Reese)	9:30 – 11:30a		9:30 – 11:30a	1 – 4 p
<i>or by appointment</i>				
At the times with this designation, I will be in my office to help you. You <b>do not</b> need an appointment to come see me at these times. When you come, I will be doing something else, but I will stop and help you. I am available at other times, but please give me a courteous call before coming to make sure I am there.				

**Text:** Trigonometry, 10<sup>th</sup> edition, Lial, Hornsby, Schneider, & Daniels, Addison Wesley. (ISBN: 978-0-321-67177-6)

**Supplies:** Scientific calculator preferably TI-82 or higher, graph paper, a ruler, (*at least a 3 in ring*) notebook, hole puncher, stapler, a staple puller, & a red pen/pencil. (Bring your supplies to class everyday!)

**Purpose:** To provide a transferable course and the mathematical background necessary for Mathematic & Engineer majors and students in the medical and physical sciences.

**Prerequisites:** Successful completion of MATH 1314 and strong algebraic skills.

**Attendance:** Attendance and effort are the most important activities for success in this course. Records of your attendance are maintained throughout the semester. *If your lack of attendance (i.e., excessive absences) is determined by the instructor to put you at risk of failing the course, you may be dropped from the class with a F as a final grade.* Excessive absences consist of 2 consecutive or cumulative days.

Sleeping in class constitutes an absence. If you unfortunately happen to incur an absence, please contact the instructor either by phone or email and refer to the website to get the assignment before the next class. Please read the “Drops and Withdrawals” policies in the current South Plains College catalog.

**Assignment Policy:** Homework will be given daily. Although the homework assignments will be graded sporadically and will not always be graded, *the practice is required in order to more fully understand each topic and to successfully negotiate the quizzes and the tests.* Questions over the homework problems will be discussed at the beginning of each class meeting if time permits.

**Notebook:** Homework, quizzes, tests, and other useful material should be kept in a notebook in which the notebook will be used as a reference and study guide. The notebook will be brought to class everyday! The following material will be placed in the notebook in the order listed:

1. Cover sheet including Name, Class, and Semester
2. Syllabus
3. Assignment sheet
4. Notes
5. Work
6. Quizzes
7. Tests
8. Miscellaneous

To print additional material for your notebook, please visit my **Blackboard**. All printed material needs to be read at least once during the term of this course.

**Quizzes & Tests:** There will be quizzes given over the assigned homework. The number of quizzes for the summer is undetermined but only a portion will count as the quiz grade. There will be four tests (final exam inclusive). The final exam will be comprehensive.

**Make-up Policy:** There is no automatic provision for making up exams. Only under extreme circumstances (e.g., death in the family or hospitalization) will make-up exams be given, and these circumstances must be documented. If at all possible, the instructor should be notified prior to missing an exam. If you happen to miss an exam, a grade of **0** will be administered, and under the **H.E.R.** (Honest Effort Rule), this missed exam of grade **0** will not be replaced by the final exam even if the final exam is greater.

**Study** You should normally spend approximately 3 hours outside of class in study for each hour of lecture. Try to study the assigned lesson as soon after the class meets as is possible. Refer to the “How to Study” sheet for further detailed studying suggestions.

**Grading Scale:**

$$\text{Avg} = \frac{\text{Quiz Avg} + \text{Test 1} + \text{Test 2} + \text{Test 3} + \text{Final}}{5}$$

A:	90 and above	D:	60 – 69
B:	80 - 89	F:	59 or below
C:	70 - 79		

**Borderline Grades:** These grades will be evaluated with regard to attendance and mature conduct in class.

**Critical Dates:**

<i>Sept 4</i>	Labor Day	<i>Nov 13</i>	<b>WEB Pre-registration for Spring 2018</b>
<i>Oct 13</i>	FALL Break	<i>Nov 10</i>	<b>Advising Day for MECS</b>
<i>Nov 16</i>	Last day to drop		<b>Final Exam</b>
<i>Nov 22- 24</i>	Thanksgiving	<i>Dec 13</i>	(5:15 – 7:15 p, Thursday)

**Videotapes:** Videotapes for many topics in this course are available online on at the following web address (<http://spc.blackboard.com/webct/entryPageIns.dowebct>). For username and password, please use *mvideos*.

**Student Responsibilities:**

- Attend class and be aware of announcements made in class.
- Work homework problems early enough to seek help if needed.
- Read and know the attendance policy.
- **\*\*Please, turn off cell phones and pagers during class! \*\***
- **No technologic devices such as cell phones, PDA's, etc. are to be used during tests or in-class quizzes.**
- **Do not dress for the beach.**
- **In addition to the No Food or Drink classroom policy, no tobacco products are to be consumed in class.**
- **You will obtain your final grade for the class through MySPC and CampusConnect.**

**Cell Phone Policy:** All students will, during each class period and for its duration, place and keep their cell phone, provided that they are at the present time in possession of said device, face-down in the right-hand corner and on the top surface of their desk. If a student's cell phone activates and/or the student engages in text messaging during class at anytime during the semester, the student, by the instructor's discretion, could be permanently dismissed from the class for the remainder of the semester. If a student's cell is activated during class and/or the student engages in text messaging determined by the instructor, and **the student chose not to place their phone on top of their desk as mentioned above** then the student will be dismissed from the class by the instructor permanently.

**Academic Misconduct:** Complete honesty is required from students in all facets of course work including homework assignments, tests, and the final exam. See the South Plains College Catalog for more detail.

**Sanctions for Cheating or Plagiarizing:** A grade of "F" in the course will be assigned to any student caught cheating or plagiarizing; additional sanctions may also be considered. Students are responsible for understanding the meanings of the words cheating and plagiarizing

**Questions:** I invite all your questions **except** the following:

1. I wasn't able to make it to class. Did I miss anything? (Yes.)
2. Is this going to be on the test? (Perhaps, not directly, but if the ideas were not important, I would not be discussing them in class.)
3. Do you have the test graded? (I normally have the tests graded by the next class day. However, there are times that I do not have them graded but I will have them graded as soon as I can.)

**Course Objectives:** Upon completion of this course and obtaining a passing grade, the student will have mastered at least 70% of the course objectives. The course objectives state that the student will be able to:

1. Recall from memory the meaning of the six trigonometric functions.
  - Hence, compute the values of the six trigonometric functions for key angles in all quadrants of the unit circle measured in both degrees and radian.
2. Be able to graph the six basic trigonometric functions and also variations and transformations of these functions.
3. Recall from memory numerous trigonometric, single and multi-angle identities and be able to use these identities to rearrange and manipulate trigonometric expressions.
  - Hence, prove trigonometric identities.
4. Be able to solve trigonometric equations giving the solutions both in degrees and radians.
5. Be able to solve right and oblique triangles.
6. Recall from memory the meaning of the six inverse trigonometric functions and their respective ranges.
7. Be able to find the solution the practical problems (applications) by making use of the expertise mentioned in objective 1 – 6.

**Diversity:** In this class, the teacher will establish and support an environment that values and nurtures individual and group differences and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

**Disability Statement:** Students with disabilities, including but not limited to physical, psychiatric or learning disabilities, who wish to request accommodations in this class should notify the Special Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Special Services Coordinator. For more information, call or visit the Special Services Office in the Student Services Building, 894-9611 ext. 2529.

### **Sexual Misconduct**

It is important for you to know that all faculty members are mandated reporters of any incidents of sexual misconduct. That means that I cannot keep information about sexual misconduct confidential if you share that information with me. Dr. Lynne Cleavinger, the Director of Health & Wellness, can advise you confidentially as can any counselor in the Health & Wellness Center. They can also help you access other resources on campus and in the local community. You can reach Dr. Cleavinger at 716-2563 or [lclevinger@southplainscollege.edu](mailto:lclevinger@southplainscollege.edu) or go by the Health and Wellness Center. You can schedule an appointment with a counselor by calling 716-2529.

**Campus Concealed Carry:** Campus Concealed Carry - Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in South Plains College buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and South Plains College policy, license holders may not carry a concealed handgun in restricted locations. For a list of locations, please refer to the SPC policy at:

([http://www.southplainscollege.edu/human\\_resources/policy\\_procedure/hhc.php](http://www.southplainscollege.edu/human_resources/policy_procedure/hhc.php))

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all South Plains College campuses. Report violations to the College Police Department at 806-716-2396 or 9-1-1.

<b>Course Outline</b>		
This schedule is tentative and subjective to change. Changes will be announced in class.		
Week	Date	Topics and Sections Covered
1	8/28, Mon	Introduction & Syllabus 1.1 Angles
	8/30, Wed	1.3 Trigonometric Functions 1.4 Definitions of Trig Functions
2	9/4, Mon	<i>Labor Day</i>
	9/6, Wed	1.4 Definitions of Trig Functions contd. 2.1 Trig Functions of an Acute Angle
3	9/11, Mon	2.2 Trig Functions of Non-Acute Angles 2.3 Finding Trig Functions using a Calculator
	9/13, Wed	2.4 Solving Right Triangles 2.5 Applications of Right Triangles: Bearings
4	9/18, Mon	3.1 Radian Measure 3.2 Applications of Radian Measure
	9/20, Wed	Test 1 ( <i>Trig Functions &amp; Right Triangles – Ch. 1 &amp; 2</i> )
5	9/25, Mon	3.3 Unit Circle & Circular Function 3.4 Linear & Angular Speed
	9/27, Wed	4.1 Graphs of Sine & Cosine Functions 4.2 Translations of the Graphs of Sine & Cosine Functions
6	10/2, Mon	4.3 Graphs of Tangent & Cotangent Functions
	10/4, Wed	4.4 Graphs of Secant & Cosecant Functions 4.5 Harmonic Motion
7	10/9, Mon	5.1 Fundamental Identities
	10/11, Wed	5.2 Verifying Fundamental Identities
8	10/16, Mon	Test 2 ( <i>Radians &amp; Graphs of Trig Functions – Ch. 3 &amp; 4</i> )
	10/18, Wed	5.3 Sum & Difference Identities for Cosine 5.4 Sum & Difference Identities for Sine & Tangent
9	10/23, Mon	5.5 Double-Angle Identities
	10/25, Wed	5.6 Half-Angle Identities
10	10/30, Mon	6.1 Inverse Circular Functions
	11/1, Wed	6.2 Trigonometric Equations I
11	11/6, Mon	Test 3 ( <i>Identities – Ch. 5</i> )
	11/8, Wed	6.3 Trigonometric Equations II
	11/10, Fri	SPC Math, CS, & Engineering Advising Day
12	11/13, Mon	6.4 Inverse Trigonometric Equations
	11/15, Wed	7.1 Oblique Triangles & Law of Sines 7.2 Ambiguous Case of Law of Sines
		<i>Intro to Engineering Projects</i>
13	11/20, Mon	Test 4
	11/22, Wed	<i>Thanksgiving</i>
14	11/27, Mon	7.4 Law of Cosines 7.5 Vectors
	11/29, Wed	7.6 Vectors contd. & DOT Product
15	12/4, Mon	7.7 Applications of Vectors
	12/6, Wed	8.2 Trig Form of Complex Numbers 8.3 Product & Quotient Theorems (Optional) 8.4 Powers & Roots of Complex Numbers: De Moivre's Theorem
<b>Finals</b>	<b>12/13, Thurs</b>	<b>Section 001</b>   <b>FINAL EXAM: 5:15 – 7:15p</b>

MATH 1316 (3:3:0)

TRIGONOMETRY

MATHEMATICS DEPARTMENT

Division of Arts & Sciences

*South Plains College*

(Reese)

Fall 2017

Shirley Davis
